Boisset Wine Living Gift Guide

2014 - 2015

WELCOME TO THE WORLD OF

Boisset Wine Living

I'd like to welcome you into our world of wine, rooted in a unique collection of historical wineries spanning from France to California. Through Wine Living, your Ambassador brings our award-winning tasting rooms directly to you through private in-home tastings, providing access to our wineries, our winemakers, as well as these limited edition wines and gifts.

Wine brings people together, and it's this spirit of family and conviviality that makes wine the perfect gift for most any occasion. I hope these gifts inspire you, not just to give, but to connect, celebrate and rejoice your time together!

Jean Charles Boisset

Jean-Charles Boisset

A HISTORY OF FAMILY TRADITIONS

More than seventeen centuries of combined history unite the wineries of Boisset. Cistercian monks planted the vineyards of Le Clos Vougeot in 1110, inspiring Domaine de la Vougeraie to this day. Bouchard Aîné & Fils has built its family reputation in Beaune since 1750. Buena Vista Winery is California's first premium winery, founded in Sonoma in 1857. These are just a few examples of the remarkable history of the Boisset Collection. Deepening the legacies of each of its estates is at the core of Boisset Family Estates' mission.

ORGANIC & BIODYNAMIC® COMMITMENT

In pursuit always of authentic, lasting-identity, terroir-driven wines that respect the living life of the vineyards, their history and their future, Boisset is a leading proponent and practitioner of organic and Biodynamic® farming at each of its estates. Biodynamic farming stimulates biodiversity, treating the vineyard as a self-contained eco-system to foster a natural balance with the earth, the vine, and the people caring for it, to produce wines true to their source, in harmony with and expressive of their unique site.

OUR FRANCO-AMERICAN SPIRIT

Boisset embraces its Franco-American roots with our vision that a spirit of collaboration and commitment to wine on both continents will transcend any divisions. We believe that the union of the two worlds of winemaking will deepen our shared appreciation of their distinctness, diversity and unity, and enrich and enliven our worlds. We are inspired to think that together, we can unite two continents and two cultures around wine... Oceans may separate us, but wine unites us!
