

DEFINING THE COLLECTION

I created the innovative JCB Collection to bring together two traditions of winemaking— New and Old World. With the collection, I celebrate my French roots while embracing my passion for California heritage. Each wine in the collection is limited edition, and is “named” with a number. These numbers signify a wine style that I strive to achieve vintage to vintage, while also symbolizing important ideas, passions and moments in my life and wine career.

A stylized, handwritten signature in gold ink that reads "JCB".
