FRENCH ROSÉ BUBBLES

THE STORY

Presenting La Vie by LVE, the perfect accessory for wherever life may take you. Our love for wine and passion for all the best in life inspired this union of quality, taste and beauty in a refined, transportable package.

WINEMAKING

The grapes are harvested beginning of the morning (in the cooler hours before sunrise) and are then destemmed for the fresh aromatic. The two varieties are vinified separately for more finesse and purity. The grapes are pressed directly. Vinification is conducted in stainless steel vats and fermentations take place at low temperatures to preserve the wines' aromatic freshness, after which the wines are aged for 3 months on fine lees and gently stirred.

WINE PROFILE

Superb, brilliant, pale pinkish color. Highly fresh aromatic, with delicate notes of red berries, citrus and tropical fruit.

On the palate, giving an impression of freshness and very well-balance with floral notes. Lovely length and a mineral, saline, fresh finish with character and delicate bubbles.
