

New Corporate Codes available for Real Estate & Car Dealerships

The Boisset Collection has 10% savings codes, set up for national real estate companies and car dealerships that can be leveraged by all of our independent Ambassadors without having to meet the \$20K threshold for a single corporate account. This is an opportunity to reach out to local realtors or people you may already have established relationships with to share the great news that they can save 10% on wine orders at any time, no minimum purchase required.

Please use the appropriate company name in the bill-to and ship-to fields when placing an order. These codes will be audited by our home office team monthly to make sure they are being used only by customers affiliated with these businesses. Also, please ask potential offices/brokers in advance if they are already being serviced by another independent Boisset Ambassador to avoid any conflicts. Boisset Collection does not have an official corporate relationship with these firms at this time so please do not represent Boisset as a “preferred partner” or characterize the relationship as such. If anything changes in that regard, we will let our Ambassadors know.
